

# Brimsham Green School

A Specialist Humanities College:  
*Challenges all to succeed*

Headteacher: Mr A J Williams BSc

## A message from the Headteacher

The school is a specialist Humanities College and strives to provide a first class education for pupils of all abilities and interests throughout the 11-19 age range.

Brimsham Green provides excellent opportunities for all to achieve more than they thought possible in a safe, healthy learning environment. We have a record of good results at all key stages and strive to ensure all students, regardless of their ability, are equipped with the necessary skills to help them be successful in life. We are proud that our curriculum is able to stretch gifted and talented children yet also ensure those who are less able are supported to achieve their very best.

We believe in helping the young people in our care to develop into effective citizens who are honest, possess a degree of wisdom, are polite and tolerant of others.

This is a caring school where the opinions of the students, staff, parents and the wider community are valued. Students learn in some truly stunning buildings and benefit from first-rate facilities. In particular, our new study centre, sports hall and dance studio complement the already excellent accommodation available. Additionally, we refurbished our sixth form common room and our sixth form study centre in 2010.

We are also fortunate enough to benefit from excellent sports facilities that include a fully floodlit Astro turf, professional athletics track as well as 30 acres of playing field. In 2009 we opened our new facility for children with a physical disability. This stunning building is a welcome addition to the already excellent facilities we have here at Brimsham Green School.

Our sixth form offers students the opportunity to study both A level courses and vocational qualifications. Our students have an excellent record of progression to university due to high academic achievement and are regularly involved in community projects.

I hope this website gives you an insight to this superb school. If you would like to see the school in action for yourself then please don't hesitate to contact me at school to arrange a visit.
